

KUSHWANTH KUMAR KARAMSETTI

Dallas, TX — +1 (929) 361-8554 — kkushwanth77@gmail.com — [LinkedIn](#) — [GitHub](#)

Skills

- **Programming Languages:** Python, SQL, Java, Pyspark, Linux
- **Cloud Platforms and DevOps:** AWS, Azure, Docker, Kubernetes, Terraform, Datadog, Amazon Bedrock, Git, GitHub, SSH, Harness, Jenkins, Snowflake, Apache Airflow, Azure Data Factory (ADF), AWS Sagemaker, Databricks, Oracle SQL, MongoDB Atlas, PostgreSQL, SQL Server, Kafka, Pandas, PowerBI
- **Machine Learning:** PyTorch, TensorFlow, Scikit-learn, Regression, Hypothesis Testing, Feature Engineering, Model Deployment, Workflow Automation, Model Monitoring, Model Drift Detection, Data Drift Detection
- **Generative AI:** OpenCV, Deep Learning, NLP, Fine-tuning LLMs, Medical Imaging, RAG Implementation, Hugging Face, Vector Databases, Embedding Models, Prompting Techniques, Speech Recognition (Whisper AI), Azure AI Studio, Langchain, LangGraph, LlamaIndex, Haystack, Vertex AI

Work Experience

Tror - AI for Everyone (Nashville, Tennessee)

Senior Data Scientist (Dec 2022 - Present)

- Developed Generative AI chat agents
- Integrated AI chatbots
- Optimized AI workflows

Kimberly-Clark (Bangalore, India)

Data Engineer (May 2022 - Dec 2022)

- Managed data pipelines
- Improved data transformations

Tror - AI for Everyone (Hyderabad, India)

Data Scientist Intern (May 2021 - May 2022)

- Contributed to MDM workflows
- Worked on lung cancer detection

Education

Webster University (San Antonio, TX)

Masters in IT Management, GPA: 3.93/4.0 (Sep 2023 - Dec 2024)**NIT Surat**
(Surat, India)

B.Tech in Mechanical Engineering, GPA: 8.02/10.0 (Jul 2018 - May 2022)

Certifications

Projects

Leaf Disease Detection (2022)

Python, Flask

- Developed CNN model for detecting leaf diseases

Autonomous Object Detection (2022)

OpenCV, YOLOv5

- Built real-time object detection system

Image Classification (2021)

TensorFlow, Keras

- Multi-class image classification with high accuracy
